Mountain View Council Meeting

A meeting of the Mountain View municipality was held Saturday at Olds, with Reeve Ellin in the chair and all councillors present.

A by-law was passed authorizing the council to enter into an agreement with the provincial government with regard to their portion of the Olds-Sundre road. The agreement provides that the municipality would do the necessary re-grading and resurfacing, also the clearing of necessary cutters. It also provides that the municipality be allowed a certain amount for the existing grade. The total estimated cost of their portion of the road was \$1,700, of which the provincial government pays 50 per cent.

Reeve Ellin and Councillor McCoy were appointed delegates to attend the convention of Alberta municipalities to be held in Calgary on November 21, 22 and 23.

The council approved of an old age pension application, and several cases of relief were discussed.

The secretary reported the total amount of taxes, both current and arrears, paid up to October 31st was \$4,031.53 less than for the same period last year. However, the amount of current taxes paid up to October 31st was \$7,892.29 more than the amount of current taxes paid during the same period last year.

BIRTHS

at Didsbury General Hospital

November 7: To Mr. and Mrs. Ernest Clarke, a daughter.

November 10: To Mr. and Mrs. Hale Goochee, a daughter.

November 13: To Mr. and Mrs. Walter McCoy, a daughter.

November 14: To Mr. and Mrs. Abe Neufeld, a son.

Dedication of New Evangelical Church.

Bishop Praetorius of Cleveland O.

The dedication services of the new Zion Evangelical Church were attended by crowds that overflowed the capacity of the building. At the service, Bishop Praetorius of Cleveland had spoken on "Fellowship With God," young and old gathered about the altar for the observance of the sacrament of the Lord's Supper.

The invocation was given by Rev. H. Scott of Calgary. Rev. F. Vincent of the local M.B.C. Church read the responsive reading. The junior choir rendered the anthem "Consecrated, Lord, to Thee," and Mrs. H. J. Wood sang an offertory solo, "When I Survey the Wondrous Cross." The benediction was pronounced by the Rev. W. W. Krueger, D.S.^o, of the congregation. The services concluded with the posting "Open Wide the Gates" played by Miss Mildred Deadrick.

The afternoon services opened with a psalm, "Newgate," played by Mrs. John Pearson.

The invocation was given by Rev. A. Traut, president of Mountain View Bible School.

The scripture lesson was read by Rev. G. Biesenius. A trumpet solo was effectively rendered by Doctor H. C. Liesemer, and was followed with a cello number by Miss Evelyn Liesemer.

Mrs. Charles Powers sang very feelingly, "Because He Loved Me So." Mrs. W. W. Krueger of Regina also favored the audience with vocal solo. Mayor H. W. Chambers in a short address congratulated the congregation on their achievement and urged them to pray for the peace of the world.

Bishop E. W. Praetorius of Cleveland, Ohio, was then introduced by the chairman, Rev. W. W. Krueger.

The Bishop paused at the opening of his address to pay tribute to those who fought in the World War. He said that "the dedication of such buildings as this is the best guarantee of that Peace and World Democracy for which our boys fought and died."

A two-minute period of silence was observed as a tribute to the soldier-dead. A Pulpit Bible was presented to the Church by the Rev. J. S. McLean, one of the contractors, Carpenters and Lumbermen.

Many letters and telegrams of congratulations were read from former pastors and friends.

The service came to a close with a benediction pronounced by the Reverend C. S. Finkbeiner of Three Hills.

At the evening service Miss Mildred Levgood delighted the audience with a violin solo, "The Lost Chord," and a vocal solo by Miss

Canadian Legion Concert.

The concert and lecture given by the local branch of the Canadian Legion on Friday last met with a very good reception. The musical numbers were thoroughly enjoyed and encores were demanded for almost every number.

The address by Mr. J. B. Corley of Calgary on Disarmament and the League of Nations was very appropriate for the occasion. Mr. Corley, who has made a special study of the League of Nations, spoke briefly of the work accomplished and gave some interesting figures as to the cost of the last great war and showed what could have been done if the same amount had been spent on building up the country instead of destruction. He stated that if profit could be taken out of the manufacture of armaments the chances of war would be lessened.

Vocal selections were rendered by Messrs J. Robertson, A. Robertson, W. Gillrie, R. Webster, Edwards Brothers, and the Westcott Quartette. An amusing skit was presented by Messrs Smith and Brennan.

Mr. Jack Robertson, president of the local legion, moved a vote of thanks to the speaker, and Mr. W. A. Austin spoke to a vote of thanks to all who helped in the concert.

Edna Thaler, "Tread Softly," was greatly enjoyed by all. A very beautiful anthem entitled "He Leadeth Me" sang by the senior choir under direction of Mr. George Liesemer, included the organ solo, officiated by Reverend C. J. Hallinan, presiding elder of the M.B.C. Church, read the Scripture from the new Bible. Reverend F. S. Spies leading the prayer that followed. At the close of the Bishop's sermon on "The Christian's Personal Responsibility for the Work of the Kingdom," the chairman of the building committee gave the keys to the Bishop who then proceeded to dedicate the building to the Worship of the Triune God, after which he returned the keys to the trustees, charging them with the Charge of care and supervision. Reverend H. J. Wood pronounced the benediction.

Sixty-eight cash and mail subscriptions were received to cover the indebtedness, and the building was dedicated free of debt. A fund was also opened for completion of the basement. Any who have not yet contributed toward this worthy project, or who wish to make an additional subscription, will be given an opportunity to do so by subscribing to this fund.

Didsbury Farmer Killed by Auto.

Ervin H. Snyder, aged 45, prominent farmer of this district, was struck and instantly killed by an automobile driven by Robert C. Borland of Calgary on the Edmonton highway, four miles north of Olds, at 8 o'clock Friday night.

Mr. Snyder had taken two friends to Bowden and when returning had some trouble with his car and hailed a passing motorist who stopped when a short distance apart. He went and spoke to the occupant of this car and while returning to his own car was struck by car travelling from the north and was instantly killed.

Constable Dobbin of the R.C.M.P. was called and the body moved to Olds.

Mr. Borland, who was driving the car which struck Snyder, is manager of the General Accident Assurance Co. at Calgary.

Ervin H. Snyder was born near Preston, Ont. on April 5th, 1883.

He came to Didsbury with his parents, Mr. and Mrs. Levi Snyder, in 1901 and farmed in this district up to the time of his death.

He is survived by three brothers, Norman, Abe and Amsey, who all reside in this district.

Funeral services were held at the M.B.C. Church on Tuesday and were largely attended. Reverends Traub and Vincent conducted the ceremony.

Pallbearers at the funeral were Messrs C. Dickau, W. D. Spence, C. E. Reiher, W. J. Scheidt and E. Brado.

TOWN OF DIDSURY

The VOTERS' LIST is posted in the Secretary-Treasurer's Office, and may be perused during office hours.

All applications to the Council for amendment of the Voters' List have to be in the form prescribed by the Town Act, and notice of any such applications should be in the hands of the Secretary-Treasurer on or before the 5th day of December, 1934.

Dated at Didsbury this 11th day of November, 1934.

W. A. AUSTIN, Sec.-Treas.

Remembrance Day Celebration

At 11 o'clock on Sunday morning a number of the local branch of the Canadian Legion met at the Butte where they held the simple ceremony of sounding the last post and Reveille and observing the "two minute's silence" after which the president of the Legion placed a wreath on the Memorial in honor of their fallen comrades.

In the evening the Annual Remembrance Day service was held at the Kinsmen United Church which was crowded to capacity. In his absence of the Padre Rev. A. J. Mitchell the service was conducted by Mr. H. W. Chambers assisted by Rev. A. D. Carrie, Rector of St. Cyprian's Church.

Mr. Geo. Clark, of Eagle Hill, gave a splendid address. He extolled the work of the "League of Nations" and made a plea for all to work in the interests of peace.

The members of the Westcott choir rendered special music.

Some Hunters Bring Back the Bacon

The lack of snow handicapped the boys who went after big game and most parties had indifferent luck but at least one party came back with a big load.

Bert Fisher, Frank Heselton and Jack Topley more than kept up their reputation and came back with a truck load. They bagged two mountain sheep, two moose and three deer. The moose they got were good, one had a horn spread of 56 inches while the other had 14 points and a horn spread of 50 inches.

Wendel Goochee and the Oliver Bros. were the other lucky party and brought in two moose.

Billy Moon, a party of Billy Gates' party and Irwin Klein's party came back empty-handed.

Roger Barrett and Stanley Brown returned from their hunting trip to Nebraska on Saturday. Roger says they had beautiful weather and says they had some splendid scenery. He also says that while he was driving out near Sundre the other day he saw several bucks, but he didn't have a gun.

WORLD HAPPENINGS BRIEFLY TOLD

Sir Ronald Ross, noted authority on tropical diseases, is dead, aged 75.

The adventurous whaling industry may be revived to prosperity on the British Columbia coast as a result of a rise in oil prices of 30 per cent.

Rolling an automobile tire before him, Emily Cross took off from Welland, Ont., on a seven-year journey around the world.

The city of Tarsus, home of Saint Paul, was swept by fire. The flames destroyed 144 houses with the loss of \$100,000.

The admiralty ordered the keel to be laid on October 1 for Germany's third "pocket battleship," to be known for the present as "armored ship C."

For lack of funds Berlin streets have for years been so badly neglected that a number of important thoroughfares have now been closed for heavy trucks.

Mrs. W. Thrift, of Sidcup, England, whose husband was reported missing during the World War, has just been notified that he was killed near Cambrai.

A number of Alberta areas face a potato shortage because of two months of hot weather without rain this summer, according to Calgary markets.

Sweden is motorized. Of every 100 vehicles one meets on its roads, only 11 are horse-drawn, the annual Swedish Road Congress at Gothenburg, Sweden, was told.

Sir Henry Simson, the physician who was in attendance at the birth of Princess Elizabeth and Princess Margaret Rose, children of the Duke of York, died suddenly of a heart attack. He was 60 years old.

Big Fur Shipments

Furs To Value Of Half A Million Arrive From H.B.C. Region

A ton and a half of fur from the northern barren lands, principally from along the west coast of Hudson Bay, passed through The Pas, Man., recently, on the way to the markets of the world. The shipment is valued at roughly half a million dollars.

The fur for mink, marten, was caught during the past year by Eskimos, Indians, and white trappers in the sub-Arctic wastes. Only the richest and most choice fur was brought down.

From Chesterfield Inlet and other points it was flown to Churchill by the three Junkers planes of the Canadian Airways, and then loaded on to the famous muskeg train that plies between the northern port and The Pas, Manitoba.

The fur will go by Canadian National Railways to the Revillion Frères Company in Canada and the Hudson Bay Company in London, England.

A Mark Of Distinction

Ability To Keep Ears Open and Mouth Shut

A man seeking a job advertises in this way in a New York newspaper: "I have just enough brains to keep my mouth shut, my ears open and present a good executive appearance. Do you need a front for your business?

We suspect the gentleman is not being quite frank with his public. Probably he is a shrewd, capable person who thinks an air of humility, of self-depreciation, an original line of approach, may achieve the results likely to deny a more orthodox recital of his good qualities.

The fact is, of course, that ability to keep the mouth shut and the ears open is a mark of considerable distinction and a virtue commonly denied to a great many persons.

The "front" of "good executive appearance" and nothing to back it up is much more apt to keep his mouth closed than his ears shut. If he knows enough to reverse the process he is more than just a front—Ottawa Journal.

(By Ruth Rogers)

A WRAP-AROUND MODEL FOR YOU IF YOU'RE A WEE BIT HEAVY

Still another smart and flattering style for matrons.

And it's cut on the wrap-over lines so you won't be all lined. There's a slenderizing bias line at the front and at the back that reduces the hip bulk. The shawl collar is very becoming. And don't you like the shaped sleeve cuffs?

So many charming materials can be used for this slim-line model.

The original was rhinoceros-wool crepe with a subtle trim of fine lace. The perfect stitching in black crepe satin with a canton-faille back. Use the dull back surface for the collar and cuffs.

Style No. 746 is designed in sizes 30, 32, 34, 36, 40, 42, 44, 46 and 48 inches bust. Size 30 requires 3½ yards of 39-inch material with ½ yard of 39-inch contrasting.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Veteran Doctor Honored

Kansas People Pay Tribute To Tradition He Represented

When nearly one thousand persons assembled at Mulvane, Kansas, recently to honor the veteran physician who had ushered them into the world, they paid tribute not only to an individual but also to the traditions he represented.

The old-fashioned country physician was one of the heroes of his profession. Scientific names now dignify the shrewd psychology he administered along with his pills and powders. Under conditions that would be considered impossible today, he performed many feats of surgery. No mud was too deep and no blizzard was too blinding to keep him from answering a call to duty. The midnight beat of hoofs along the plow usually meant that he had sacrificed another night's rest in order to relieve some one's suffering.

The old-time country doctor is passing. As with the circuit rider and the colporteur, his type will eventually become extinct. But the recent assembly in Kansas shows that modern medicine can well afford to honor the traditions of courage and duty that thousands of country doctors left behind them—New York Evening Post.

Altitude Records

Two British Pilots Make Claims To New High Records

British pilots, flying at opposite ends of the Empire, have advanced claims to two new aviation altitude records.

Captain Cyril Unwin claimed a new record for land planes, with a flight to 45,000 feet at Bristol. The official record is 43,154 feet, held by Lieutenant Apollo Couek, United States navy.

At Port Darwin, Australia, an amphibian attached to the British navy's ship, "Albatross," was reported as claiming a new altitude record for that type of ship, with a flight to 23,000 feet.

It was also claimed that a balloon released from the "Albatross" (without passengers) reached a height of 70,000 feet, or more than 13 miles. This was set up as a record. There are no official records for passenger balloons. Professor Auguste Piccard rose nearly 11 miles over Italy in his latest stratospheric ascension.

Epithapi Was Fitting

Tomstone Dealer (after several futile suggestions): "How would just a simple 'Gone Home' do for an inscription?"

The Widow: "I guess that will be all right. It was always the last place he ever thought of going."

Ceremony Postponed On Account Of Crowds

Final Stone Of Canadian Memorial At Vimy Not Laid

Hanging from the end of a great crane a nine-ton stone is poised over the summit of Canada's memorial at Vimy Ridge while mayors of neighboring towns and other notables are wondering why the ceremony of completion was interrupted.

At the last moment, Brig.-Gen. Henry T. Hughes, after conferring with the builders, decided the stone should not be laid. Apologies were tendered to the French guests, who accepted them with graceful gestures and puzzled glances. The last stone was still hanging far above them.

It was explained afterwards an employe of the Canadian authorities had circulated news of the memorial's completion with misplaced zeal, causing a party of eminent visitors to attend. Brig.-Gen. Hughes, whose home is in Victoria, B.C., directed the construction work and intended the ceremony of completion to be private.

Actual completion of the memorial is not expected until the latter part of 1934, as sculptured figures of heroic size are yet to be carved on the higher levels. The topmost figure will be 90 feet above the main platform. One figure on the lower level, representing the spirit of Canada, is already finished.

Towering 125 feet above the Ridge and containing 6,000 tons of flawless stone, the structure commemorates Canadian valor at Vimy. It has been under construction since 1925.

British Speed King Married

Kaye Don Disclosed Secret Before Sailing For Home

Kaye Don, the 40-year-old dapper British king of speed, disclosed the fact that he was a bridegroom as he sailed for home without his bride—21-year-old Eileen Martin, daughter of the wealthy and socially prominent Mr. and Mrs. Leonard J. Martin, of Greenwich, Conn.

She had some "business affairs" to wind up, he explained, but would sail to join him in England, and then they will go to Italy for a honeymoon.

Don said the ceremony was performed in Greenwich, but would give no other details.

And his bride first met in New York a year ago, when he first made his unsuccessful attempt to take the Harmsworth speed-boat trophy from Gar Wood.

Later Miss Martin went to school in Germany and they continued their courtship in Europe. Don said the wedding was all arranged when he arrived for the races this year.

"The prettiest dress at the picnic everybody said"

"I must tell you about going to a big, all-day picnic," writes a woman from Ontario. "I thought I couldn't go because I had nothing fit to wear and couldn't afford a new dress. The day before, the drug store offered me a wonderful new tint powder made by the people who make Diamond Dyes, which I have often used in dyeing my fabrics. These diamond dyes, she explains, are the same high quality as Diamond Dyes. The difference is they are for light shades and don't require boiling. I used this tint and it cost me only a dollar. It was still hanging far above them.

It was explained afterwards an employe of the Canadian authorities had circulated news of the memorial's completion with misplaced zeal, causing a party of eminent visitors to attend. Brig.-Gen. Hughes, whose home is in Victoria, B.C., directed the construction work and intended the ceremony of completion to be private.

Towering 125 feet above the Ridge and containing 6,000 tons of flawless stone, the structure commemorates Canadian valor at Vimy. It has been under construction since 1925.

It was brought to this country by a sea captain, returning from a voyage to Madagascar, in 1964.

harmful ingredient.

THE TENDERFOOT BY GEORGE R. RODNEY

Author of "The Coronado Trail", "The Canyon Trail", Etc.

SYNOPSIS

"You've taken heir to a half-shade in plenty of trouble," the lawless town of Seeo said. Spike had been systematically looting the ranch, and old Joe Carr, your partner, is drinking himself into ruin."

But Reeme decided to go see what was going on himself—not as Gerald Keene, half owner of the Hour-Glass Ranch, but as Duro Stone, tenderfoot in a Montgomery Ward store.

Dad Kane, desert rat and luckless prospector till now, is returning to tell Dustin and Spike Goddard, owners of the Broken Spur ranch, who had been looting him, the secret of a rich gold mine, and shows samples of the ore. He sees Broken Spur men rigging Hour-glass cattle and proves it again.

(Not to Go On With The Story)

CHAPTER III. Continued

This time Spike scoffed openly. It was no secret on any ranch in Seeo Valley that Edith Carr, the red-headed, fiery-tempered daughter of the old owner of the Hour-glass, did exactly as she chose. So did her father . . . in most things for she dominated even the dear old man whom most men feared. Edith was not red-headed for nothing and Dustin had discovered it once to his sorrow. When Reeme and Spike had first bought up the broken spurs that gave them title to the Broken Spur he vaguely noted the redheaded unformed schoolgirl who occasionally went to the infrequent Valley dances. Then five years passed, she became the rage and he was suddenly aware that the unformed girl had developed almost overnight into the perfectly formed woman whom men openly coveted.

It was a full two years since Dustin saw her when his eyes were opened. She was coming out of the office in Seeo and he, about sixteen, stood as though paralyzed at sight of her. His heart thumped as she stared at him unseeingly and her bright head was upthrust as she passed and a couple of "dry farmers" giggled. Dustin flushed. He did not know nor would he have cared had he known that that very morning old Joe Carr had commented on his known conduct at a Mexican dance and on a household that he maintained in Seepville. Dustin raised his hat and stepped up to her.

"Aren't you going?" to say "Good morning?" he asked quietly.

"To you? Why? . . ." Edith stopped and looked at him as one might look at a mangy dog and that looked burned even Sam Dustin.

"I'd like to walk up the street with you," he suggested.

The loutish at the office-door did not hear his words but they saw him drop into step with her and they nudged each other. Then they saw her stop and draw herself up. There was no mistaking her words. They came with the whirr and snap of a whip-lash.

"The street is open to the public, I believe," she said. "When I walk with any one it will not with a 'squaw man'."

That was all. Dustin, the big man of the Broken Spur, dropped back. His face was white with wrath and his lips were set. The men who saw it all never said a word about it till they got safely home but after that word spread. They watched him snitch his horse from the tierack and they preserved the silence of the damned till his horse was swallowed up in a dust-wreath. Then . . .

"She sure set fire to his shirt-tail" quoth old Styles. The others giggled uncomfortably. They knew Dustin fairly well.

Sam Dustin neither forgave nor

forgot that incident and more than once he had planned revenge but no opportunity came his way. That one hot encounter marred Edith Carr as the only person in the Valley worth the time and patience to tame her and Dustin swore to himself that tomor she should some day be. Some day he would bring her to heel.

He had sense enough not to try to force his attentions on her. He knew old Joe Carr too well for that; the old man was one of the old breed that held their women-folk sacrosanct. The man must be better than ordinary to get his legs under old Joe Carr's table where the pretty Edith held sway. That was also the beginning of trouble for the Hour-glass ranch.

It was a big ranch. For miles its wire fence hung into the hills and its broad ranges pastured many cattle. But hard luck dogged old Joe Carr's narrow heels. First bear dropped to nine dollars! Then to six . . . Then a bucking pony slammed him against a bucking-post in the corral and broke his leg in two places. The break healed imperfectly. It had to be rebroken twice and the pain and the irritation over being a cripple when every man was usually needful, awoke the old fever that had never really subsided since Edith's mother was laid away in the little burying-ground under the great alamos . . . cottonwoods . . . From day to day Dustin tried gallantly to stop that solitary drinking. She saw her father go into his office after supper; she saw the door close and she knew only too well what taking place behind that closed door. She waited until the next morning but each time she was repelled and the door was locked. Sick at heart, for she knew what the trouble was she fled to old Frank Creve, the foreman.

"Is there no way to make him stop?" she sobbed. "Oh, Frank! You know what it means! He's too good a man to go wrong at a time like this."

Creve nodded. "It's too good a man to run off the straight at all," he said. "I've busted his bottles till the back-corral looks like a bankrupt glass foundry. Miss Edith, but I'm darned if I can make him see sense."

The size of the matter is that he's just plumb worrying himself into his bed and he's drinkin' to keep out of it. Damn him! He ought to know that with times like they are those two men Dustin and Goddard ever at the Broken Spur are just settin' up at nights waitin' for a chance at him. If he ain't darned careful they'll git it too!"

They did get their chance and they knew well how to take advantage when it came their way. They both knew what was taking place at the Hour-glass. A drinking boss means a careless bunk-house and any ranchman knows what that means. It's driller snakes.

The result was not quick-moving. It came with the slow growth of an avalanche. That moves very slowly at first till sheer weight overcomes inertia. Then it becomes suddenly dangerous. That first slow danger showed itself in the disappearance of the number of calves branded. Then a long line of fence broke down and one discovered it till too late. Cattle strayed off the range bounds and if they calved at all, brought forth their young in hidden places where no one discovered them till too late. Then a few calves with withered tongues . . . That told its own story to range-bred men . . . Calves whose tongues were slit to keep them from sucking their own dams.

These followed a gradual drop in the grade of the stock . . . Any one could see it! Finally the open legal row over Soda Springs.

High Heaven alone knew why those pools were called Soda Springs. There were three of them; great jets of clear cold water that sprang from the wall of the upper valley and

From White To Blue

Buffalo's surgeons are now men in blue no longer; their surgical dress is blue. "Blue is preferred," Dr. James Borrell explained, "because it does not reflect the rays of light, as did the white. Asked to comment on the change, a number of prominent surgeons said it was all the same to them, black, white, blue or green.

CAN'T SLIP OR SLIDE FALSE TEETH

Don't use any old kind of remedy to cure false teeth—use a reliable, recognized one which dentists prescribe and use. Dr. Venetia's Powder—the largest seller in the world—keeps teeth so secure yet comfortable they feel natural. Positively no slipping or clicking—blissful comfort assured all day long. Special preparation contains a perfect tooth and mouth powder. No colored, gammy paste keeps mouth sanitary—breath pleasant. Inexpensive—all drugs.

As the second largest supplier of wheat flour to Italy during 1933, Canada increased the export of the commodity by 45 per cent, as compared with 1932.

Kidney Troubles

cause poisons to accumulate in the system and bring on persistent Backache, Lumbargia, Rheumatism, or Sciatica. Take Dr. Venetia's Powder to the kidneys to help restore health and eliminate the poison from your system.

(To Be Continued.)

IT'S LIVER THAT MAKES YOU FEEL SO WRETCHED

Wake up your Liver Bile

—No Calomel necessary

For you to feel healthy and happy your liver must be in top condition. Without that bile, you're dead, every day. Without that bile, trouble starts. Poor digestion. Slow elimination. Headaches. Skin eruptions. How can you expect to clear up a stomach ache, when you have a sluggish bile, etc. mineral water, laxative candy or chewing gum or roughage? This don't make you feel better. You need Carter's Little Liver Pill. Purify your liver. It's the best medicine. Ask for them by name. India rubber substitutes. See at all drugstores.

Some Consolation

The new governor of the Bank of Canada is said to have been "no marvel at mathematics" during his school days. This should prove consoling to many a schoolboy who experiences difficulty in wrestling with the mysteries of that accrued trio: Algebra, Geometry and Trigonometry.

A Book You Should Own

A collection of famous formulae and simple methods. Seven leading departments thoroughly indexed.

Recipes for the home cellar, the druggist, the chemist, the miller, the baker, the housewife, farm and dairy, all trades and professions. NOT A COOK BOOK. This valuable collection of scientific knowledge has been carefully built up over a long period of time, resulting in the most complete book of formulas of this sort ever compiled. Size 3½ x 5½, 368 pages.

Of course you
don't waste
food intentionally,
but how much do you
waste without knowing it?

How often have you thrown out part of a loaf—or the remnants of a cabbage or even the dried out carcass of a chicken?

These and other leftover foods can be used to make tasty dishes if you keep them fresh and can keep all food tight with Para-Sani Wax Paper.

Para-Sani has dozens of kitchen uses—lining baking tins, wrapping sandwiches, preserving the crispness of lettuce and celery. You'll find the self-cutting Para-Sani green box a great convenience and a real economy.

Livestock Marketing Plan Approved

By a thirty-to-one vote a meeting of approximately 200 producers and delegates, representatives of the various branches of Alberta's Livestock business last Thursday adopted a scheme designed to bring the industry under the Natural Products Marketing Act.

The proposal as adapted now goes to Ottawa, but before it becomes operative, in present or altered form, many steps remain to be taken. The Alberta Lumber Association, which was informed, will be reached by a vote to be taken among all the registered producers of the province. The scheme, speakers said, is basically a producer plan, designed to aid all branches of the industry without throwing any additional burdens on consumers.

Embracing sweeping powers, described as constitutionally drastic powers, the main cog in the set up, as outlined, will be a local or Alberta board of 11 members. The first board it is suggested will be named by the provincial minister of agriculture, and according to the draft as approved, will have headquarters in Calgary.

Selling agencies will be established by the local board, which will, as far as possible, utilize existing agencies. Many potential benefits are expected from operation of the act the meeting was informed, and the presented plan so sound and drafted as to take care of future expansion even to the extent of all provinces participating.

Provisions of marketing powers embodied in the proposal giving the board the right to pool when deemed expedient caused a flurry of questions from the meeting. Explanations were given by George H. Barr, K.C., Regina, legal adviser of the provisional committee; A. Speckman, M.P., Red Deer; W. C. McKenzie, chairman of the meeting, and E. W. Brundrett, representative of the provincial government.

Whether the pooling method of sale and payment would be adopted depended solely on the discretion of the local board, Mr. Barr explained. The clause had been included as one of the many powers which it board must have to successfully cope with situations experienced by similar organizations in the past. Whether it would be utilized depended on the producer, he made, through his elected representative to the local board, had full control of the situation.

Attend Reunion of 31st Battalion

The Didsbury Veterans of the 31st Battalion went to Calgary almost 100 per cent strong to attend the annual reunion dinner which was held at the Hudson's Bay Co.'s store Saturday evening last.

Those who attended were Messrs. W. Gillies, Jack Robertson, W. Loos, Frank Gresham, Ernie Cullen, Alton Park, Chas. Mardon, Chas. Munro and Pete Macdonald.

Mr. Jack Robertson was elected in the executive of the Association at the meeting following the dinner.

Doings Of Our Neighbors.

At Innisfail: At the regular meeting of Poplar Grove Council Mr. J. M. Bent of Calgary was appointed secretary-treasurer and will start on his duties November 15.

While making his rounds in the early hours of a recent Saturday morning Constable Dick disturbed two men who had entered Graham's Hardware Store, apparently having picked the lock. One of the men ran off but the constable was quickly able to make his arrest. Nothing else nothing was stolen, though several articles were piled up on the counter as if ready to be lifted.

At Olds: The Curling Club held its supper and smoking concert last Monday night.

The pigs of cattle from the sheep herd at the Olds Industrial Farm are being shipped to Toronto where they will compete in the royal winter fair which opens November 22.

Olds hockey team was admitted to the Southern Alberta Hockey League at the annual meeting held at Calgary and will compete in a six-game schedule to be drafted later. Teams forming the league are: Drumheller Miners, Calgary Brooks, Calgary Rogues and Olds.

At Carstairs: It is reported that Jim and Art McCoy will buy out the Carstairs Hardware business.

Want Cost of Car Licenses Reduced

Resolutions asking the provincial government to lower the fees charged on automobile license plates in 1935 by \$10, was passed by the executive of the Alberta Motor Association at Calgary last week. The resolution also requests that the license year be set back to April 1, 1935.

Two Houses Burn Down at Crossfield

About 11:30 p.m. Friday night fire broke out in the residence of Mr. McFadyen, Crossfield, when most of the residents of the town were attending the minstrel dance. The flames, however, did not soon spread, but the house and most of its contents was a total loss. Some insurance was carried.

The Jessamine residence next door was also a total loss, though most of the contents were saved. The Banister house was saved by means of plasterboard placed against the roof and walls on the side next the burning house. The Halliday residence was in danger, but the fact that there was no wind saved a more serious situation.

The Calgary fire department was called and made the trip to aid the local firefighters.

RUGBY NOTES

On Monday afternoon Mrs. Hosgood entertained a number of ladies in honor of Mrs. Clarke who is shortly leaving our district for Nova Scotia. The afternoon was passed pleasantly in a social manner. At lunch time Mrs. Clarke was presented with a gift from those present, which she acknowledged with a few gracious words of thanks. Since coming to our district Mrs. Clarke has made a very definite place for herself in our community and she will be very greatly missed by us all and especially in our W.I. where she has always been such a great help. We all wish her the very best of health and happiness in her new home.

KNOX UNITED CHURCH NOTES

On Sunday Nov. 18th Rev. T. T. Faichney of Wesley United Church, Calgary will be the guest speaker.

The newly organized choir has prepared a special musical program for this occasion. Mr. Faichney has always been very popular with the Didsbury congregation and they will be pleased to again have the chance to hear him.

Evangelical Church Notes.

The sermon subject at the Zion Evangelical Church Sunday morning will be "Going Forward With God." In the evening Rev. Dr. G. J. Hallman will occupy the pulpit.

Jaw Broken by Stray Bullet.

While driving home from Rocky Mountain house to his farm in the Chederville district one day last week, August William was struck by a stray bullet which broke his jaw in two places. He received medical attention at Rocky Mountain House and is improving. It is thought that the bullet came from the rifle of one of the scores of big game hunters now scouring the district.

CARD OF THANKS

We wish to thank all the friends and neighbors for their help and sympathy during our recent bereavement.

Telephone Subscribers Will Organize.

The organizing committee of the West Didsbury telephone subscribers met in the Didsbury School last Thursday evening. It was reported that they have approximately 80 names on their lists favoring the idea.

The committee decided to hold a meeting on Tuesday evening, November 20th in Melvin School at 8 o'clock for organization purposes. All present and prospective subscribers are urged to be present. Mr. Munroe of the Alberta Government Telephones, Calgary, will outline the plan.

Melvin Notes

Mrs. Oscar Carlson and Mr. Lancelot Carlson of Calgary are spending a few days with Mr. and Mrs. G. Carlson.

Mrs. Ed Vetter and children of Three Hills spent last week with Mr. and Mrs. Peter Johnston.

Several ladies of the district attended the Hospital Aid meeting town on Tuesday.

The Misses D. Young, E. Bissett and M. Brown spent a few days in Calgary last week attending a teachers' convention.

Messrs. Carlton Leeson and Reid Clarke were guests at a banquet and dance held at the Q.S.A. Tuesday evening.

Burnside Notes.

Miss Tena McLean of the staff of the Mental Hospital at Ponoka spent the weekend at her home here.

Mr. and Mrs. B. Woods, Margaret Coyne and Ole Star were Sunday visitors at the Metz home.

Mrs. Hugh McLean and Mr. and Mrs. N. Eckel spent the weekend in Calgary.

Lone Pine W.I. met at the home of Mrs. Woods on Thursday afternoon last. This was "Stunt Day" and many were the amusing readings, songs and games by which the members replied to the roll call. On Dec. 6th the annual meeting will be held at the Lone Pine Hall for election of officers and exchange of Christmas gifts.

Mr. Sam McAllister spent a few days in Calgary last week.

Mr. Geo. Metz who with Mr. H. Goering motored to Manitoba to visit friends is expected home this weekend.

Mr. Bill Walukwa spent Sunday with Robert Eckel.

Mr. Kasper Sanfor left on Thursday for a visit to his old home in Germany.

Mr. Fred Metz spent Tuesday evening at the N. Eckel home.

Mr. Wm. Kirk is moving to the Kasper Sanfor place.

Miss Helen Pross and Mr. Happy Wall spent a couple of days last week in Calgary.

Mr. and Mrs. N. Eckel were callers on Wednesday at the home of Mr. and Mrs. H. B. Campbell.

Mr. Bill McCulloch has been visiting friends in Didsbury.

Lessons Of The Depression

Perhaps the wish is father to the thought but it is quite evident that, in steadily increasing degree, people are expressing the view that the depression which has hung over the world like a fog for the past five years is lifting, slowly perhaps but nevertheless surely, and that gleams of sunlight are aeping through for the encouragement of mankind and the restoration of confidence.

In support of this view statistics are quoted of increased business, rising prices, more employment, increased revenues for the railways, rising national revenues. Betterments of this kind are noted, not in one but many countries, and from many quarters come reports that there is a growing tendency on the part of people with money to invest to again proceed to do so.

Whether this more optimistic viewpoint is justified we are not in position to say, and it is just possible that the statistical betterment noted is the result of the inflation of artificial wants rather than the arrival of business by governmental bodies rather than the outcome of a natural and more substantial improvement in conditions. Whatever may be the underlying cause of this slowly returning confidence, it is undeniable that it exists, and people believe that the tide waters which have been running so strongly in an adverse direction for so long have passed the peak and are now beginning to flow in an opposite and more favorable direction.

Coupled with this, there is recognition in Western Canada that, while such betterments may be seen in other parts of the country and the world, there can be no marked improvement throughout this section of the Dominion until it is blessed with more favorable and normal climatic conditions, resulting in some profitable return to our agricultural population for the continuous labor they have experienced. Unemployment has not been the curse of the vast majority of Western people. They have worked long and strenuous hours 365 days in the year, but Nature in an unkind mood for some years past has denied to our working farmers any profitable return from their labor; in fact, in thousands of cases no return at all. Loss has been added to loss, and the cumulative effect has been to throw tens of thousands of other people out of employment because there was no work to be had. Such climatic conditions will not permanently continue.

Possibly one of the best indications that the depression is passing is that people are beginning to take note of the lessons which it has taught. Some of these are of a purely material and practical kind. For instance, and despite a certain school of thought which urges that man should pursue his activities from year to year, and as nearly as possible, balance production and consumption, there is a growing recognition of the wisdom displayed in Egypt in the days of the Pharaohs under the guidance of Joseph they had by and accumulated a reserve in the year of plenty to carry them through the lean years. It is more and more coming to be accepted as a truism that in Western Canada we must do likewise.

But above and beyond the material lessons taught by the depression, lessons is to be hoped, have been well learned by many—there are moral, ethical, spiritual lessons, the importance and significance of which will it is also to be hoped, leave a lasting impression.

Ritchie, the famous prize-fighter, is reported to have once said that he never knew how good he was until he got his first licking. Many of us have taken a pretty severe licking in different ways during the past five years. It sometimes does a man good to be thoroughly floored. It may call up reserves of energy that he never realized were his. And this seems to be ought to be to the credit side of the depression. Adversity brings out the strength of character of men and women, or the lack of it. Seemingly strong men have gone down and gone under; others have displayed an initiation into the tested trials of character and strength which even they did not know they possessed.

Assuming that the fog of the depression is lifting and that we are again slowly emerging into the sunlight of more prosperous times, now is a good time to take stock of what we have learned and to teach it to others, to individuals and to nations. If we correctly interpret the lessons and point our efforts in the right direction, our nation will be better, stronger, more enduring. This, in time, is a time for realistic balance sheets, balance sheets of character, of habits of motives, as well as and even more important, the final analysis that balance sheets of money, stocks, bonds and chattels.

"I have just taken a real inventory," said a man who has had his full share of bad business breaks. "I've thrown out a lot of stuff I used to carry around. For instance, I carried on my person a lot of useless luxuries that were needed then. When you're down and out you don't sleep longer. I let them go. Then I found out that they had been standing in front of people that really were friends. I'd been spending time and money on people that didn't mean a thing to me, and neglecting those who did. Now I'm getting along much better. I still have a few things left, but I think, on the whole, I've come through the depression much better. My cash value of my estate has shrank considerably, but that's balanced by an increase in what can't be measured by any yardstick—dollars and cents. The result is my net worth is greater. There's a good side to going broke."

How many people have been wasting time, money and energy upon things that really do not count and neglecting those that are worthwhile and make life what it ought to be and was intended by an all-wise Creator to be.

Has the depression taught you who needs this any lesson? Are you a better person, a more valuable member of the depression, or have you revealed weaknesses of character and slipped into bad habits? If you are willing to profit by the lessons learned, if you, with all your worries and difficulties, are willing, the depression may be turned to good account. It's up to you.

Diarrhoea, Dysentery, Colic Cramps and Stomach Pains

Prompt treatment with Dr. Fowler's Extract of Wild Strawberry in such cases relieves the pains, checks the looseness of the bowels, and thus does away with the suffering of the patient, and often times the collapse associated with attacks of this kind.

Do this by checking the too frequent and irritating stools, settling the stomach, and bracing up the weak nervous system, thus making it a remedy for the treatment of diarrhoea, dysentery, colic, cramps and other bowel afflictions.

On the market for 48 years—you do not experiment when you use it.

Put up only by The T. Miltoun Co., Ltd., Toronto, Ont.

WHAT DOES YOUR HANDWRITING REVEAL?
By LAWRENCE HUBERT
(Grapho-Analyst)
(All Rights Reserved)

(Editor's Note: These articles on Character from Handwriting have aroused enormous interest. Many readers are sending specimens of their handwriting for a personal analysis. If you want your handwriting analyzed, see the announcement at the foot of this article.)

A Grapho-Analyst's mailing is very interesting. It is a reflection of people's hopes and fears, worries and problems—it is a very mirror of the self. And for each question, the writer's grapho-analysis can supply an answer.

Hand writing shows plainly the character of the writer. Grapho-analysis is an X-ray that cuts through the verbiage, and gets right down to the very nature of the writer. A girl writes in tormented fashion, pleading for advice on how to deal with her brother and father. They are making life miserable for herself and me, and I am afraid that if I tell him if the letter do not go, what they are told in regard to some money that the man want. The writing of the father and brother show great mental softness, with a desire that something it gushes over into violence.

Another girl is having trouble with her boy friend. "Please do not trust me." These are typical letters of this kind. And very often, we can give a reassuring answer. Sometimes, our advice will part—but the truth is what you are told in regard to some money that the man want.

A mother is very anxious to know the characteristics of her young daughters. And what talents they possess. In the writing we can tell them about the lines in which they can most progress, and in which they will be happy.

Another mother is perplexed about her son. She is the only child she has, but she doesn't understand him. Grapho-analysis reveals his blither traits, and suggests a line for the mother to work on with him. A girl from the West says her life has been miserable, and, try as he will, he cannot do anything right. The writing reveals the tried-and-tired column of the soul, and the need for great control. He can't get to his before he can regain normality.

The letters show how many people are equal square in round holes. Reptiles wasted because the possessor is in a vocation totally unsuited to him. Opportunities lost, because people have not developed the essential qualities of will and determination. Grapho-analysis is very helpful, telling the person his own characteristics, but also those hidden tendencies that are gradually looming up and will, ere long, affect one's mode of living. Those are strong points, but there are potential weaknesses, and men cursing. Grapho-analysis shows the way.

What does your handwriting show?

Let a skilled Grapho-Analyst tell you the secrets that your writing reveals. You will be surprised at the revelations. Find out the true characteristics of your friends. Send specimens of your writing you want analysed, and enclose 10¢ coin for each. Enclose with 2¢ stamp addressed envelope.

Dr. Lawrence Hubert, 175 Mcleod Ave., Winnipeg, Man. Letters are confidential and will be unanswered as soon as possible, but please allow at least two weeks for your reply.

Old Ship Scuttled

Otago Was Once Commanded By Conrad The Novelist

Sixty-three years ago a small sailing ship of 318 tons, the Otago, left Liverpool for Port Chalmers, New Zealand. She did the voyage in the almost record time of 85 days and many were the yarns told of her both in the town and at her destination.

Now she has been taken out to sea for the last time and scuttled. It just did not pay to break her up. But her past was a tale of romance. She was once the command of Joseph Conrad, novelist, and later he made references to her in his books—"The Mirror of the Sea," "Falk," and "The Shadow Line."

Built in 1869, she put up some fine performances. Once she sailed 366 miles in 24 hours. Her last days were spent as a coal hulk in Hobart, Tasmania, a battered hulk prepared

California has more than 17,600 trees with trunks at least 10 feet in diameter.

Albert Doubleday, of Troy, N.Y., founded the American national game baseball.

World Peace

League Of Nations Society In Canada Organizing Mass Meeting

Canadians are vitally interested in world peace. Certainly this is true because of the humanitarian outlook of our people and because of the stress we rightly place upon law and order in all realms, not excluding that of international affairs. This general outlook is strengthened for us by two special considerations. Firstly, our position as a member of the British Commonwealth would make it exceedingly difficult for us to avoid becoming involved in any large-scale conflict. Secondly, the present status of a great trading country makes it exceedingly important for us that confidence, peace and financial stability be restored throughout the world.

The League of Nations Society in Canada is organizing a series of mass meetings throughout Canada late in October, 1931, with a view to bringing these and other important considerations before our people and developing a sound public opinion in support of the maintenance of peace. The three signatories hereto, being the Saskatchewan members of the National Council of the Society, urge all communities in Saskatchewan to join with the rest of Canada in this demonstration by organizing local meetings and addresses at that time. Programs and necessary information and assistance can be obtained from the Society's office, 121 Wellington Street, Ottawa, on request.

Canada is not a militaristic nation, but the best safeguard against its becoming one is the local maintenance of our influence maintaining a strong one at Geneva and elsewhere abroad in the development of a strong public opinion within our own country. We therefore confidently and earnestly commend this program to our fellow citizens of Saskatchewan. E. G. F. Price, C. L. B. Crookston, Regina; Andrew S. Sibthorpe, Saskatoon; (Mrs.) Violet McNaughton, Saskatchewan.

Submarines Made Safer

All the new submarines built for the British navy have two safety devices, one consisting of eye-bolts to which divers may attach a hawser in case of need, and the other being a battery of buoys which can be released from within the vessel to permit communication with rescuers.

BABY'S UPSET STOMACH Relieved!

Often in hot weather and occasionally at other times, little stomachs are apt to become upset. Little signs of sick stomachs, says Mrs. J. Alphonso Brown, Bayside, P.E.I.: "I always give a Baby's Own Tablet to babies when they are not eating right. These tablets are very easy to take and quite safe. All common ailments of childhood, including colic, are promptly relieved with Baby's Own Tablets. 2¢ a package at drug stores." 122

Dr. Williams

BABY'S OWN TABLETS

The shipments of livestock from Western to Eastern Canada for the first 36 weeks of 1931, ending September 7, included 62,560 cattle; 701 calves; 150,412 hoggs; and 45,222 sheep.

Girl to Woman

Mo. G. F. Price of Cambridge, St. Catharines, Ontario, was a girl developing a strong desire to be a woman. She was a tomboy, rowdian, and a mischief maker. Her parents, Mr. and Mrs. F. Price, gave her a tablet. This medicine made her feel like a girl. She stopped being a tomboy and became a good girl. She now has a boyfriend and is a good student.

The number of live cattle shipped to England from the United Kingdom up to September 13, totalled 37,775 head, as compared with 36,229 head during the corresponding period of 1930.

Faster Way Now to Relieve Neuralgia

DISCOVERY ALSO EASES BAD HEADACHES MUSCULAR PAIN OFTEN IN FEW MINUTES

Remember the pictures below when you want fast relief from pain? Aspirin Speed and Aspirin Safety. See what our Aspirin Safety tablets do for you in a minute! An Aspirin tablet begins "taking hold" of your pain practically as soon as you swallow it. It is safe, it is strong, it is effective. For Aspirin does not harm the heart.

Remember these two points: Aspirin Speed and Aspirin Safety. See what our Aspirin Safety tablets do for you in a minute! An Aspirin tablet begins "taking hold" of your pain practically as soon as you swallow it. It is safe, it is strong, it is effective. For Aspirin does not harm the heart.

Why Aspirin Works So Fast

Drop an Aspirin tablet in a glass of water. In a few seconds the tablet touches the lining of the stomach and begins to dissolve.

IN 2 SECONDS BY STOP WATCH

An aspirin tablet starts to dissolve after 2 seconds and go to work.

What happens in these Aspirin tablets in your stomach? ASPIRIN tablets start "taking hold" of pain in 2 minutes after taking.

When in Pain Remember These Pictures
—ASPIRIN DOES NOT HARM THE HEART

Success Crowns Efforts Made To Save Antelope Herds In Their Native Habitat

Canada's success in bringing back the bison has been acclaimed by wild life conservationists in many parts of the world, but little has been said of her successful efforts in saving the prong-horned antelope in its native habitat in Western Canada. The march of settlement in the West made disastrous inroads on the numbers of these timid animals and when their condition was brought to the attention of the Dominion Government immediate action was taken through the Department of the Interior to establish reserves for their protection and propagation. In 1914 the first sanctuary to be established was that to be later known as Wawasekay Park, an area of 54 square miles in southern Alberta about 75 miles east of Lethbridge. Early in 1915, an area, later to be known as Nemiskam National Park, about 25 miles north of Medicine Hat, Alberta, was set aside for the protection of antelope in that district and since then the success of the Department's efforts has been most remarkable.

The man work in the conservation of the antelope is taking place at Nemiskam Park since the area of eight and a half square miles comprising the sanctuary is fenced and a definite record of the progress of the work can be kept. The herd of approximately 425 antelope in this park represents the results of an interesting experiment. Previous to 1915 efforts at raising antelope in captivity had been unsuccessful owing to the effects of the shock of capture. Consequently officers of the National Parks Branch of the Department of Interior, in charge of the work, hit upon the scheme of corralling a herd of antelope on a suitable grazing area. A herd of forty-two animals were observed feeding north of Medicine Hat, and the work of fencing the animals in without disturbing them was successfully carried out. Since then they have thriven evidently unconscious of their captivity and these graceful native animals are rapidly being restored in numbers.

At Wawasekay National Park, as far as observations of those in charge of the park show, the antelope which frequent this unfenced reserve are increasing. Concentrations of these animals are noticeably greater throughout the area than previous to the establishment of the park and their future in this part of the province appears assured.

Higher Wheat Price Needed

Would Do More Than Anything Else To Bring West Back

However, taking Western Canada as a whole this will not be a debt-paying year. Most farmers will be able to meet their current bills and their taxes and to provide for seed and feed. The more fortunate ones will also have enough to pay the current mortgage interest.

The crop is big enough to make every few cents advance in price important. Westerners are not looking for higher prices, they are praying for them nevertheless. No single factor could do more to bring back the West than a rise in the price of wheat. Nothing else can do the job alone. —Financial Post.

China has decided to participate in the Chicago exposition next year.

"You only married me for my money!"
Just the opposite, dear. Because I had none." — Wahre Jakob, Berlin.

Wealth From the Land

Increase In Revenue From Alberta's Farm Products Is Expected

Several million dollars' increase in revenue from Alberta farm products is expected in 1932, compared with the 1931 figures, according to financial men.

The 1932 revenue is expected to exceed \$152,000,000 compared with \$147,000,000 in 1931.

Alberta's farm animal production for 1932 will total \$16,000,000 it is estimated. The dairy industry is estimated to realize \$12,000,000, while poultry and poultry products may reach \$8,000,000. Miscellaneous commodities, it is believed, will return \$300,000.

These figures, added to \$116,000,000 set as the value of this year's field crops, result in the estimated \$152,000,000 total.

This does not allow for probable increases in market prices. If any improvement in prices occurs the total will be much larger, it is pointed out.

Mild Winter Predicted

Cree Indians Say There Will Be Lots Of Snow

Western Canadians can prepare for a mild winter with plenty of snow. A late fall and an early spring will cut down the winter below its usual length. That's the decision of the official weather men of the Cree Indians at The Pas, Man.

Year after year the Indians have been calling the turn on the weather and always correctly. The uncanny skill of the aborigines in forecasting the weather for the coming season is highly respected in the north country.

To gain their information they closely observe the actions of muskrats and other animals at this time of the year.

Churchill Could Have Handled More Wheat

Shipping Agent Disappointed In Amount Of Tonnage Offered

With the successful clearing from Churchill of all boats in that vicinity, some 2,000,000 bushels of grain will have been exported in the first commercial season of the Hudson Bay route. Thomas Harling, shipping agent, said at Montreal eight steamers were chartered this year to carry grain overseas from the northern port.

"It would have been possible to handle a much greater quantity," Mr. Harling said, "and I am a little disappointed that more tonnage did not come out." The area about Prince Albert and Saskatchewan can provide approximately 45,000,000 bushels for shipment through Churchill annually, he said.

Free storage in the elevator at Churchill and elimination of transfer charges had been of assistance in promoting use of the new route, but Mr. Harling expressed the belief that establishment of ordinary rates, such as prevail in Montreal and other ports, would have little effect on the volume of shipments next year.

The question of rates at the Hudson Bay port would probably be dealt with in the report of the transportation commission, Mr. Harling said.

Reducing Temperature

Offices Cooled As Well As Heated By Steam

A system for cooling business offices by steam has been tried with success in Detroit. Steam under high pressure is passed through a nozzle at high velocity where it acts as a pump to remove the air and vapor from a tank of water. This produces a vacuum, cools the water rapidly, and the water is then pumped through cooling coils to reduce the temperature in the rooms. Modern science has thus destroyed another illusion that janitors only work in the winter months.

About nine per cent. of the forest fires are due to railroads, it is said.

Exports Of Home Grown Wool Have Developed Rapidly During The Past Few Years

Plymouth Rocks Sent To Arctic Outpost

Alaskans Residents Look Forward To Having Fresh Eggs

No longer will residents at Akavik, one of the last outposts in the western Arctic, sigh for nice fresh eggs. Akavik, which is more than 1,000 miles north of Edmonton and up in the Arctic circle, has had its population increased by thirteen pullets and two roosters, and the residents will soon have fresh eggs—that is if the chickens lay.

G. M. Cormier, provincial poultry commissioner, shipped the feathered flock to P. Stromberg, described as a "poultry fancier of Akavik." Akavik has no chickens at the present time, it is stated.

The chickens travelled by train to McMurray and then by boat to Akavik. They are pure-bred-to-day red Plymouth Rocks and are five-and-a-half-months' old pullets.

The hens are in good condition to face the long winter darkness of the north. On the trip north they were fed a special laying mash and whole grain to keep them laying until they arrived.

In announcing the trip by the chickens, the poultry branch remarks that civilization is going north. In this connection it might be recalled that a team of horses went as far north as Arctic Red River by boat last year to do various pieces of work around different posts. At Arctic Red River children who had never seen horses gaped open-mouthed at them and called them "big dogs."

Irate Parent—" Didn't I see you kiss my daughter, sir?"

Nervy Youth—"How should I know? Do you think I'd be gawking around when I was doing a thing like that?"

Canadian exports of home-grown wool have developed rapidly since the war. They now amount to a yearly average of 7,000,000 lbs.—about 40 per cent. of the whole Canadian production—as compared with only a million pounds per annum in pre-war days.

Prior to 1931, the bulk was taken by the United States, but last year the United Kingdom took the major part of Canadian wool exports.

These facts are revealed in a new report on the production of, and trade in, wool issued by the Empire Marketing Board: "Wool Survey: A Summary of Production and Trade in the Empire and Foreign Countries."

Nearly one-half of the world's raw wool, and over two-thirds of the wool entering trade is produced within the British Empire. The world's sheep population is estimated at nearly 800 million head, of which about one-third are in the Empire. They produce between 3,500 and 4,000 million lbs. of wool per annum, and of this amount about 1,500 million lbs., including much of the best wool in the world, comes from the British dominions of Australia and New Zealand.

Among the other important producing areas, consisting of South America, the United States of America and Russia, only South America has a surplus for export. The United States of America is largely self-sufficient as regards merino and crossbred wools, but imports carpet wools. Russia produces almost entirely carpet wools, and imports both the finer wools and wools of the carpet type. Neither of these countries seems likely to assume any importance in the near future as an exporter of raw wool.

After reviewing the development of the sheep population, the wool production and the wool trade of each of the principal countries concerned, together with the course of raw wool prices over the past 40 years, the survey reaches the following conclusions:

There has been no exceptional increase in the sheep population or the wool production of the world in recent years; indeed, between 1928 and 1930 there appears to have been a small decrease in wool production, and although the year 1931, according to the partial estimates at present available, probably witnessed an increase in production over 1930, it is not anticipated that the record level of 1928 will be appreciably exceeded. British Empire countries have maintained their share of the world's sheep population at about one-third, and their share of the world's production of raw wool at about one-half.

In the export trade, in which the share of Empire countries is over two-thirds of the world total, there has been, on the whole, little variation since 1926 in the consignment of raw wool from producing to manufacturing countries, and there would appear to be an abnormally large accumulation of stocks of new wool in the principal exporting countries. At the end of the 1930-31 season, when stocks in certain of the prime pit producing areas were higher than usual, they still formed only a very small part of the aggregate annual production. No large stocks have been allowed to accumulate through efforts to maintain prices, and proposals to restrict the sales or stabilize the prices of raw wool have been vigorously opposed.

To the camera-hunter and the student who wishes to learn the Empire offers unusual opportunities for interesting experiences and records. There is no closed season on game to the camera-hunter and, throughout the year, his skill and resourceful equipment, study the habits of the animals and birds and to photograph them in their natural surroundings.

Game Laws Of The Provinces

The game laws of the different provinces are drafted by the provincial government with a view to meeting local conditions; consequently there is no uniform game law for the Dominion as a whole. As these game laws are subject to revision from year to year persons contemplating a hunting trip are advised to obtain copies of the current game laws and regulations of the province in which they intend to hunt.

The National Development Bureau of the Department of the Interior at Ottawa will gladly supply information on hunting in Canada by cable, by returning with requests or referring same to other sources from which the particulars desired may be obtained.

"Where does this path go to?"
"It doesn't go anywhere. Can't you see how still it is?" — Gutierrez, Madrid.

HUNTING IN CANADA

WIDE VARIETY OF BIG AND SMALL GAME

DURING recent years there has been a remarkable increase in the number of people of this country who enjoy the sport of hunting and many thousands go afield yearly. No section of the world can offer the sportsman the same favourable conditions as prevail in Canada with its immense areas of virgin territory within rapid and comfortable means of access.

This country has over 1,000,000 square miles of forest, which contains game animals ranging from the timid rabbit to the huge and dangerous grizzly bear. Moose, caribou, elk, deer, big sheep, mountain goat, bear, wolf and lynx are plentiful and may be hunted during open seasons of generous length.

Wild Fowl Abundant

The numerous lakes and ponds of northern Canada are the breeding places of the main waterfowl population of the American continent. Common ducks, geese, swans, teal, ruffed grouse, ptarmigan and partridge are plentiful and provide good sport in certain districts.

Conservation Of Game

In Canada a practical form of conservation is found in the setting aside of tracts of public lands as game preserves and in the right protection of game in its extensive natural areas and provincial parks. In these areas the game multiplies rapidly, under protection, and spreads over into the surrounding country. This favourable condition coupled with sound protective legislation regulating the open

"You only married me for my money!"

LOCAL & GENERAL

Mrs. Alexander is visiting with Mr. and Mrs. W. J. McCay.

Mrs. Frank Mortimer and daughter Fay of Calgary are spending a few days with Mr. and Mrs. Ross Ford.

Mr. E. G. Ranton and son Bill went to Edmonton on Sunday to see Mrs. Ranton who is visiting in the capital city.

Didsbury U.F.A. Local No. 12 meets Saturday, November 24 at the livestock office. All members are requested to be present as there is considerable business to transact. (462)

Mr. and Mrs. Ross Ford's first and Mr. and Mrs. Nyle Husperger's fifth wedding anniversary was celebrated at the home of Mr. and Mrs. Ford on Friday evening last. A turkey dinner was served, after which bridge was played. The guests were Mr. and Mrs. Archie Boyce, Mr. and Mrs. Russell McCormick, Mr. and Mrs. J. W. Halton and Mr. and Mrs. Frank Mortimer. It is interesting to note that all the ladies present were formerly on the staff of the Didsbury Hospital.

Poppy Day Shows Good Results

The Poppy Day campaign conducted last weekend by the local Canadian Legion in aid of the disabled veterans proved very successful, and the girls who were selling poppies disposed of their entire stock.

Total receipts from the sale of poppies amounted to \$50.80, while the sale of wreaths amounted to \$80.00. A very substantial amount was forwarded to the Disabled Veterans' Association, and a nice balance added to the Legion Benevolent Fund.

WEDDINGS

NEUFELD-HARDER

A quiet wedding was solemnized at the M.B.C. Parsonage Didsbury on Thursday, November 8, when Miss Annie Harder of Cartwright became the bride of Mr. Martin Neufeld of Didsbury. The Reverend F. Vincent performed the ceremony.

Mr. and Mrs. Neufeld will reside on the "Home Farm," east of Didsbury.

FOLKMANN-ROSENBERGER

A quiet wedding took place at the Lutheran Parsonage, Westcott, on Sunday, November 11, when the Reverend J. J. Kuring united in marriage Grace Jean, daughter of Mr. and Mrs. B. Rosenberger, and Mr. F. H. L. Folkmann, son of Mrs. A. Folkmann. Miss Beth Wieglesworth acted as bridesmaid, and Mr. Henry Folkmann was groomsman.

The bride was charming in a gown of blue crepe with grey accessories. She carried Madame Batterly roses and pink and white carnations.

After a honeymoon at Edmonton and points north Mr. and Mrs. Folkmann will reside at Didsbury.

SUTHERLAND-SMITH

Mrs. George Smith wishes to announce the marriage of her youngest daughter, Laura Anne, to Mr. William George Sutherland of Ponoka, which took place Saturday, Nov. 10 at Edmonton.

MRS. H. J. FRIESEN

LOCAL & GENERAL

Misses Alice and Mollie Pearson were weekend visitors at Edmonton.

Mr. Otto Mueller of Ghost Pine visited his sister Mrs. Bert Fisher this week.

Misses Ruby Kercher, Lila Wriggsworth and Grace Rosenberger motored to Calgary on Friday.

Mr. V. Bjorklund and his mother of Red Deer, spent Sunday with Mr. and Mrs. Tom Duncan.

Turkey Shoot in Didsbury Next Wednesday at 1 p.m., under the auspices of Didsbury Gun Club. Watch for bills:

Murray Kendrick was heard over the radio last Wednesday evening singing in the Mount Royal College program over CJCH.

Dr. and Mrs. Clarke accompanied by Miss Lorna went to Edmonton on Saturday to attend the wedding of their niece Miss Gwenne Nixon.

Mr. and Mrs. William Purdy of Caroline are visiting with Mr. and Mrs. Ed Kercher, Mrs. Purdy's parents.

A wedding dance will be held in the Melvin School on Wednesday evening, November 21, in honor of Mr. and Mrs. William Summers.

Archie Boyce will hold a Community Sale in Didsbury, the date to be announced later. List all goods with C. E. Reiber. (44c)

The Didsbury Swine Club are arranging for a dance at Community Hall on Friday, December 4th—Keep the date in mind!

Saint Cyprian's W.A. will give a social evening at the home of Mrs. Bookner on Friday evening November the 16th. Whist drive with dance to follow.

JACK HERRING—Teacher of Guitar (Hawaiian or Spanish) will be at Mr. Frank Durre's Every Friday Afternoon. Enroll now and make appointment. (454)

The Annual Novelty Dance given by the I.O.D.E. will be held in the Opera House, Friday, November 23. Halliday's 5 Piece Orchestra will supply the music. (44c)

Action Suite will be held at John E. Clarke's farm, 9 miles West of Didsbury, on Wednesday, November the 28th, with Archie Boyce as auctioneer. Watch for sale bills.

Westcott Women's Institute are holding a bazaar at Westcott School this Friday, November 16 at 8 p.m. Besides the sale of goods there will be a good program. Adults 25¢ and children 15 years and under free. (44c)

A grand masquerade dance celebrating the fourteenth anniversary of the building of the hall will be held at Mt. View Community Hall on Friday, November 30 Halliday's 4 Piece Orchestra. (44c)

Honoring Miss Grace Rosenberger, Miss Ivy Mitchell and Mrs. Wilfie Rennie entertained Wednesday last at a miscellaneous shower. About twenty-six guests were present, and the bride-to-be was the recipient of many lovely gifts.

Announcement is made by the Young People's Society of the Lutheran Church of a series of 4 Lutheran messages over CFCH. The first of the broadcast series commences Sunday evening, November 18 from 6:30 to 7:00 p.m., the topic being "Divine Providence," by Reverend V. L. Meyer.

Special Announcement is made by J. Scruton, The Photographer, of One 7x9 Photograph (head and shoulders only) for \$1.00. This offer closes November 15. Come in and See the New Fall Mounts and Styles. Also come in early for your Christmas Photographs. We are again repeating our Christmas Special of Greeting Cards printed from your own snapshot negative. (432c)

An interesting meeting of King Hiram Masonic Lodge was held on Tuesday evening, when Doctor C. R. Bunn of Red Deer, D.D.G.M. of District No. 4 paid his official visit. It was also the occasion of a fraternal visit from King George Lodge of Calgary. After the meeting a supper was given in the Odd Fellows' Hall, and a splendid musical program was contributed by members of King George Lodge and friends.
